

Helping our Planet?

It's all about YOU

Do You have a Plan?

**Workshops & Interactive Presentations
for primary and secondary students**

Meet the 'Worm-Poo Lady'

Caren Trafford BA Hons, MES

Author, Presenter, Creator Publisher

Stimulating, exciting, fun, inter-active presentations on sustainability, waste, global impact management and how we can help save our environment.

Why not invite Caren to your school to encourage your students join the world's teams of environmental heroes?

Thank you for your thought-provoking presentations. Too often environmental messages are depressing for our students. It was wonderful to have such a positive and uplifting slant given on the critical environmental issues facing our students today.

Rhodes Ave Primary School, London.

ECO-LITERACY DEVELOPMENT

Topics for 5-15 year olds:

Sustainability

Reducing Waste

Consumerism

**Environmental Local & Global
Impacts**

Water Management

Worms, Sewage, Recycling

Reducing our Eco Footprint

Renewable Energy

Climate Change Drivers

'Your books are absolutely fantastic! I have been trialling them, the teachers love them and I think they should be in all the schools on Earth'

Molly Harriss-Olson, Director EcoFutures

Caren Trafford, author, publisher and world-wide environmental educator speaks passionately on how everyone - but especially our students - can make a difference to global issues today. These stimulating, exciting and thought-provoking presentations cover sustainability, local and global eco-footprints, waste reduction and management and why it's so important to be accountable for our environment.

Students are encouraged to examine their current behaviour and consider change to help save our precious planet.

Using science and humour, today's environmental messages are brought to life as students are challenged to make a difference.

'Thank you so much for your fabulous contribution to our kids and our wider community. We had a fantastic day of learning for everyone and there is much 'a-buzz' about as the interest continues to flow...'

Helen Wardega, Principal, Picnic Point Public School

Presentations & Workshops

Educator, author and presenter Caren Trafford, speaks to school students globally helping them examine & understand current environmental issues.

Her environmental books & resources are used by students & teachers around the world, have sold more than 200,000 copies, have been translated into five languages and short-listed for an environmental literature award.

With a large pictorial content, a myriad of interesting facts and questions, Caren challenges her audience to think differently about our environment and find positive actions to make a difference.

Students, teachers and parents alike, are captivated by the unique narrative non-fiction style of teaching the critical issues of environmental management & science.

Caren has been the author-in-residence for the Miles Franklin Literary Camp and has presented to more than 10,000 students across Australia, S. Korea, the UK and Europe.

Workshops and presentations are tailored to fit curriculum for students from 5-15.

Universal Appeal

Harrow, UK

London, UK

Copenhagen, Denmark

Sydney, Australia

Talbingo, Australia

There was a lot here to engage students on environmental issues affecting the planet. It was great for the pupils to hear a speaker using examples from around the world and for them to realise the global impact we are having on the environment.

John Connelly, Science AST, Canons High School, Harrow, UK

I didn't know how clever worms are at turning waste into something useful. I learnt a lot about how to manage our waste and how important it is to reduce, reuse and recycle.

Isabella

'What I learnt inspired me to help save our planet.' Samantha

TOP 3 Workshops 2009

- Waste & Consumerism: it's up to you
- Worms: The Power of One
- Positive Environmental Messages

Thank you again for your incredibly awesome/ appropriate presentation as well as your calm and flexible demeanour. The kids absolutely loved you.

E. Ferreira, American School of the Hague, Netherlands

'I can't wait to nag Mum and Dad about getting a worm farm. Thank you so much for teaching us lots of things about the environment and how to save it.' Darian
